Thank You Stewards !

The April General Membership Meeting (GMM) was designated as “Stewards Appreciation Meeting”. I want to thank the stewards who attended the April GMM and the members who attended the meeting to show support to the stewards. I want to thank all APWU Stewards for performing their duties as a union representative. I also want to thank the Craft Directors for overseeing their stewards and providing them on the job assistance to investigate and process grievances.

I reminded the Stewards and Officers at the meeting that we are here to serve the members, the members are not here to serve us. Being a steward also requires being a good co-worker and a defender of the members’ rights.

The members also have an important role to ensure the collective bargaining agreement is adhered to. Members are encouraged to support their steward and officers. Members’ providing information and statements to the stewards and officers is of great importance in their duties to police the contract and provide representation.

Support and thank your Steward!

NOTE: The May General Membership Meeting was changed to the 2nd Saturday, May 14, 2016. Make plans to attend the May GMM.
